

Testimonials for Affordable Web Design and E-Commerce, Inc.

"We were blessed to have selected Affordable Web Design and Hosting through our competitive search of nine companies across the country to redesign the Union Temple Baptist Church website. We look forward to a long and mutually beneficial relationship."

Sincerely,

Rev. Willie F. Wilson, Senior Pastor
Union Temple Baptist Church, Washington, DC
www.uniontemple.com

"Affordable Web Design led by Lewis surpassed all of our expectations in redesigning our website. We were primarily concerned with establishing a professional website at a reasonable price and AWD achieved this objective in a timely and efficient manner.

I personally worked with Lewis on each phase of the redesign and was impressed with his thorough work and quick resolutions to any revisions we requested.

The service coupled with the most competitive pricing in the market allow me to unconditionally recommend Affordable Web Design to any individual or companies in search of a pleasant and professional web design experience."

"I have nothing but good things to say about the staff at Affordable Web Design. From start to finish, you treated us with the utmost respect and courtesy. Thank you Lewis for helping us capture what we were wanting to convey. EXCELLENT would be the word to describe the kind of work that is Affordable Web Design."

Jesse L. Radford III - Senior Pastor

"Affordable Web Design, Inc. deserves another AWARD for **OUTSTANDING SERVICE** and **DESIGN**. We appreciate the friendly, professional manner in which you relate to clients. Your apparent innate creativity plus the technical expertise that you possess aids in the production of a web site that speaks to the needs and desires of our organization."

Thus, we will recommend AWDH, Inc. as a life saver for his/her business. Thank you very much, Lewis and other staff.

We wanted a "friendly" website, one that could be "comprehended" immediately and easily by the "visitor". While, at the same time, it also had to convey the reassurance of the years of professional experience that support the services we offer.

Affordable Web Design & Hosting, Inc. understood exactly our requirements, and the website that was implemented for our company is beyond what we expected and completely satisfies our needs.

Thank you so much for your excellent dedication and quality of work!

Gaby Poli

"After spending a year surfing the Internet for ideas for our web site, we chose Affordable Web Design & Hosting because we like the design of their web site.

We also called their references and were impressed with the glowing reports. We personally worked with Lewis, who is both artistic and knowledgeable. The whole process was easy and stress-free. He was readily accessible, both by phone and e-mail. He is a good listener and attentive to details. We gave him a sense of our preferences in terms of color schemes and lay out, and he was able to produce a highly professional products. His fees are reasonable and are well-worth the work he's put in."

"I am a webmaster who is taking care of a variety of different web sites. I have come across Affordable Web Design and Hosting, Inc. approximately 8 years ago and have been working very close with them since then. I have hosted a lot of web sites on their systems and have been extremely happy with the quality of the service and support. Unlike any other hosting company I have worked with, despite the distance between my location and them, they have provided excellent prompt support for any problems or queries I had.

I have no doubts to recommend AWDH.com, without any reservations, to any webmaster or site owner, who wants an economical and high quality hosting solution.
